

## Study Scholarships - Postgraduate Studies in the Field of Music • DAAD

### Overview

---

#### Objective

This scholarship programme offers you the opportunity to continue your education in Germany with a postgraduate or continuing course of study in the field of music. The scholarships also promote the exchange of experience and networking amongst colleagues.

#### Who can apply?

You can apply if you have gained a first university degree in the field of Music at the latest by the time you commence your scholarship-supported study programme; if this is not possible, you should have at least exhausted all the training options available for your instrument in your country of origin.

#### What can be funded?

In this study programme, you can complete

- a Master's degree/postgraduate degree leading to a final qualification, or
- a complementary course that does not lead to a final qualification (not an undergraduate course)

at a state German college of music of your choice.

The funding of postgraduate studies is possible in the so-called 2nd cycle (usually a four-semester Master's degree) or a 3rd cycle which usually takes place in two semesters (concert examination, masterclass or PhD in an artistic subject).

**A Master's degree programme in Germany that has already started at the time of the application deadline cannot be funded.**

If you are enrolled in a Master or postgraduate degree programme which includes a study period abroad, funding for this period abroad is usually only possible under the following conditions:

- The study visit is essential for achievement of the scholarship objective,
- the visit does not take place in the home country, and
- it is no longer than a quarter of the scholarship period. Longer periods cannot be funded, even partially.

**Please note:** This programme only funds projects in the artistic field. Other DAAD scholarship programmes are available for applicants from the field of musicology or music education or musicians with a scientific project.

#### Duration of the funding

##### Degree programme:

- Funding is provided for Master's studies, preparation for the concert exam and participation in master classes.
- Start: usually from 1st October of the following year, or earlier if a German language course is taken prior to the study programme
- The scholarships are awarded for the duration of the level of training for the chosen study programme (between 10 and 24 months). Please state the entire period for which you wish to apply for funding in your application. For example, if you are planning a 2-year degree programme, you must directly indicate two years as the desired scholarship duration in your application. After the first year of study, your academic achievements will be assessed in a further funding procedure. If this shows that you will successfully complete your programme within a reasonable period of time, the scholarship will continue as planned.

- An extension of the scholarship beyond the maximum duration of 24 months is only possible if changing to a new stage in studies is intended (usually from a Master's degree to an advanced programme of study such as a concert exam or master class). For particularly qualified candidates, it is possible to apply for an extension for a concert exam for up to 24 months.

#### Complementary studies not leading to a final qualification:

- One academic year is being funded. In individual cases, the scholarship can be extended on request
- Start: usually on 1st October of the following year, or earlier if a German language course is taken prior to the study programme

#### Selection

A special DAAD committee made up of professors from German colleges of music makes the final decision about scholarships in the field of music. The decision is based upon written applications and sound recordings which have to be submitted (see: [www.daad.de/extrainfo](http://www.daad.de/extrainfo) [<http://www.daad.de/extrainfo>]).

#### Selection criteria

- the artistic qualification and artistic maturity, measured by study achievements and work samples
- the quality of the project as measured by the study plan and the letter of motivation; the quality of the project includes the following aspects: the justification of the application, the plausibility and feasibility of the project, the state of preparation of the stay abroad, the embedding of the stay in the artistic career as well as the connection with professional perspectives

In addition, the selection committee will give due consideration to aspects of equal opportunities, on which you can provide information in the application form.

For further information on the selection procedure, please refer to the [Important Scholarship Information \[https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/1/\]](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/1/) / Section E.

## Further information

Confirmation of a scholarship does not automatically guarantee admission to one of the colleges of music named in the application. The respective college of music decides whether or not to offer scholarship holders a place. In most cases, applicants are required to take an entrance examination. Please find out in time about admission requirements and application deadlines and interview dates at your chosen college of music, and bear in mind that these may be several months before the planned start of your studies or even before the DAAD awards the scholarship. We cannot cover the costs of the entrance examination. If an applicant is offered a scholarship by the DAAD but fails to be admitted to a university, he/she may not make use of the scholarship that has already been awarded.

## Application requirements

---

### What requirements must be met?

Please check if the following criteria are fulfilled:

- As a rule, your university degree should not date back more than 6 years at the time of the application deadline. Please read our [important information for scholarship applicants / Section A, point 2 \[https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/1/\]](https://www.daad.de/en/study-and-research-in-germany/scholarships/important-information-for-scholarship-applicants/1/).
- The respective college of music is responsible for deciding age limits for admission, whereby differing rules may be applied depending on the applicant's academic level and chosen subject.
- Your application **cannot** be considered, if you have been resident in Germany for longer than 15 months at the application deadline.

### Language skills

Applicants in the field of music should have a knowledge of the language of instruction that corresponds to the requirements of the chosen university at the latest by the time they start their scholarship. If you do not yet have the language skills required by the university at the time of your application, your application should indicate the extent to which you are in a position to reach the required level. After you have been awarded a scholarship, take advantage of the funding opportunities described under 'Value'.
