Target Group

The programme is intended for students who

- are regularly enrolled at a German higher education institution,
- have completed their first year of study,
- are enrolled at a higher education institution participating in the Erasmus+ project
- AND whose home institution has signed an Erasmus cooperation agreement with the receiving institution.

Academic Requirements

Erasmus+ mobility of individuals is open to all students at higher education institutions participating in the Erasmus+ programme who are in at least their second year of study.

Number of Scholarships

In 2022, approximately 55,000 participants were funded within the Erasmus+ framework.

Duration

The duration of the Erasmus+ study and traineeship periods may vary from 2 to 12 months. The maximum, however, is of 36 months for studies or traineeships:

- For Bachelor's, Master's or doctoral students of up to 12 months
- For students in comprehensive degree courses, such as medicine, programmes ending with a state examination or traditional diploma courses the grant will be awarded for a period of up to 24 months and an additional 12 months for students pursuing a doctoral degree.
- The scholarship can be split up within one study cycle, for example into 2 6-month stays.
- Moreover, in certain circumstances, shorter stays in the form of a "blended mobility" (combination of virtual and physical stays abroad) can be funded. The duration of the physical stay abroad has a minimum of 5 days and a maximum of 30 days.

Scholarship Value

The grant value varies depending on destination and higher education institution. Sponsored students are exempt from tuition, registration, examination, laboratory and library fees at the host institution.
