

# In-Country/In-Region Programme Sub-Saharan Africa • DAAD

## Overview

---

### Objective

The programme aims at fostering strong, internationally oriented higher education systems in Sub-Saharan Africa with the capacity to contribute to sustainable development. To this end, scholarships are granted for development-related Master or doctoral studies for individuals who plan to pursue a career in teaching and / or research at a higher education institution in Sub-Saharan Africa.

By training future academic and professional leaders, the programme contributes to the following long-term impacts:

- Qualified professionals' involvement in the solution of development-related problems in Sub-Saharan Africa
- Graduates strengthening education and research in Sub-Saharan Africa
- Structural strengthening and regional networking of partner institutions and partner universities

To achieve these long-term impacts, the following outcomes have been formulated as programme objectives:

Programme objective 1: Graduates have qualified to take over responsible positions in their, or for their, region of origin

Programme objective 2: The participation of women and underprivileged groups is reinforced

Programme objective 3: Organizational, financial and personal capacities of partner institutions are strengthened

As part of the „In-Country/In-Region Scholarship Programme“ DAAD offers scholarships for PhD and Master studies. The programme is funded by the German Federal Ministry of Economic Cooperation and Development (BMZ) and aims at university staff in the first line, without neglecting the public sector demand of academically trained personnel.

### Who can apply?

The target group for scholarships are graduates and postgraduates from Sub-Saharan Africa with a first academic degree if applying for a Master's programme, or with a Master's degree if applying for a doctoral programme who want to pursue Master's or PhD courses in their home country (so called In-Country scholarships) or in another Sub-Saharan African country (In-Region scholarships).

Female applicants and candidates from less privileged regions or groups are especially encouraged to participate in the programme.

Please note that In-Country scholarships for students from South Africa are administrated by a cooperation between DAAD and NRF in a separate call for applications and a separate deadline ([daad.de/go/de/stipa10000279](https://daad.de/go/de/stipa10000279) [[daad.de/go/de/stipa10000279](https://daad.de/go/de/stipa10000279)]).
