

## In-Country Scholarship Programme in the Palestinian Territories

- DAAD

### Overview

---

#### Objective

The programme aims at fostering strong, internationally oriented higher education systems in the Palestinian Territories with the capacity to contribute to sustainable development. To this end, scholarships are granted for development-related Master studies for individuals who plan to pursue a career in teaching and/or research at a higher education institution in the Palestinian Territories.

By training future academic and professional leaders, the programme contributes to the following long-term impacts:

- Qualified professionals' involvement in the solution of development-related problems in the Palestinian Territories
- Graduates strengthening education and research in the Palestinian Territories
- Structural strengthening and regional networking of partner institutions and partner universities

To achieve these long-term impacts, the following outcomes have been formulated as programme objectives:

Programme objective 1: Graduates have qualified to take over responsible positions in their, or for their, region of origin.

Programme objective 2: The participation of women and underprivileged groups is reinforced.

Programme objective 3: Organizational, financial and personal capacities of partner institutions are strengthened.

As part of the 'In-Country/In-Region Scholarship Programme', DAAD offers scholarships for Master studies. The programme is funded by the German Federal Ministry of Economic Cooperation and Development (BMZ) and aims at university staff in the first line, without neglecting the public sector demand of academically trained personnel.

The standard period of study and the start date are based on the agreement between the host university and the DAAD.

DAAD will transfer the fees directly to the host institution.

The DAAD will endeavour to transfer the first monthly payment to your bank account as quickly as possible after the beginning of your scholarship. Processing the first transfer of funds may take some time.

Payments generally cannot be made prior of the scholarship start date and the commencement of studies at the host institution.

Furthermore, no additional benefits that are not listed in this call for applications, such as benefits for family members, can be granted.

### Selection

All applicants apply via the DAAD online portal not later than the deadline. After formal evaluation of the DAAD regarding the completeness and correctness of the applications, the applications will be forwarded to the host institutions depending on which host institution has been chosen by the applicant. The host institution screens and short-lists applications, then sends the pre-selection report and lists showing the participants of the pre-selection to the DAAD.
