Re-invitation Programme for Former Scholarship Holders • DAAD

Overview

DAAD grants offer students and academics and scientists the opportunity to carry out research and continue their education in Germany. There are funding programmes for various qualification phases and stages in a career.

The aim of this programme is to enable former scholarship holders to carry out research and working projects in Germany and to maintain contacts as part of DAAD's global alumni network.

Who can apply?

- Former holders of DAAD research grants or study scholarships, who were funded for a period of over six months
- Former East German scholarship holders who studied for at least one year in Germany

What can be funded?

- Research and working projects at state or state-recognised institutions of higher education or non-university research institutes in Germany
- Working stays at an institution in business, administration, culture or media for former scholarship holders who work outside the science sector.
- A research or working visit can also take place at several host institutions.
- Funding may only be claimed once within three years.

Duration of the funding

- One to three months; the length of the grant is decided by a selection committee and depends on the project in question and the applicant's work schedule.
- The grant is non-renewable.

Value

- Monthly payments of
2,000 euros for assistant teachers, assistant professors and lecturers
2,150 euros for professors

Monthly payments for former scholarship holders who work outside the science sector will be calculated based upon their qualifications accordingly.

- Travel allowance, unless these expenses are covered by the home country or another source of funding.
- Other payments cannot be made.

Selection

An independent selection committee reviews applications.

The most important selection criteria are:

- Academic achievements and, if applicable, publications, which must be documented in the curriculum vitae and a list of publications
- A convincing and well-planned research or work project
- In the case of working stays outside the science sector, particular attention is paid to the following questions:
 - Will the stay in Germany have a sustainable effect on your professional activity?
 - Can you expect it to have multiplier effects, for example, in the form of planned publications?
 - Will your stay in Germany promote existing cooperations?

Application requirements

What requirements must be met?

- Applicants must have returned to their home country at least three years previously.
- The research or working project must be coordinated with a cooperation partner in Germany.

Application Procedure

The application procedure occurs online through the DAAD portal. The access to the DAAD portal opens about 6 weeks before the application deadline.

To apply, please select the call for applications for this programme in the scholarship database (www.funding-guide.de). From here, you can enter the portal by clicking the tab "Submitting an application".

Application documents

Documents to be uploaded to the DAAD portal
