

SPACES II.1 CaBuDe: Scholarships for Foreigners: Short-term scholarships for Bachelor students (type C), Master students and Senior Experts (type D), PhD students and Senior Experts (type E) and Postdocs and Senior Scientists (type F) - marine projects • DAAD

Overview

Objective

In the framework of the programme SPACES II of the German Federal Ministry for Education and Research (BMBF), researchers from Angola, Botswana, Malawi, Mozambique, Namibia, South Africa and Zambia conduct scientific collaboration projects to investigate climate processes, the global climate change, and their consequences in the region of Southern Africa. Sustainability is one focus of this research. Sustainable research requires early support for young experts in research and education at universities and research institutes, including industry-related ones, in Germany and the participating African countries Angola, Botswana, Malawi, Mozambique, Namibia, South Africa and Zambia. Good networking, close coordination and long-term cooperation of these nations are of equal importance.

The accompanying DAAD scholarship programme “Capacity Building/Development” (CaBuDe) aims at developing the required capacities. The programme will enable scholarship holders from Southern Africa to research, to network and to be (further) educated in Germany, in order to become experts for the sustainable scientific-technical cooperation between their home countries and Germany. The same applies to the short-term research scholarship holders from Germany under this programme.

Who can apply?

The following categories of researchers can apply:

- excellently qualified students, graduates, doctoral candidates and postdocs from South Africa, Namibia, Angola, Malawi, Mozambique and Zambia who are doing research within one of the following **marine SPACES research projects**

Selection

Applications will be reviewed by an independent selection committee consisting of experts in the relevant fields.

The decisive selection criterion is the compatibility of the research proposal with the chosen [SPACES II project](https://www2.daad.de/medien/ausland/ausschreibungen/projektuebersicht_spaces_cabude.pdf) [\[https://www2.daad.de/medien/ausland/ausschreibungen/projektuebersicht_spaces_cabude.pdf\]](https://www2.daad.de/medien/ausland/ausschreibungen/projektuebersicht_spaces_cabude.pdf). Other important

selection criteria are the relevance and quality of the research proposal and the applicant's academic achievements.

Application requirements

What requirements must be met?

Type C: Short-term research scholarships for bachelor students

As a rule, applicants must be registered at a university of one of the programme related countries at the time of application as well as during the funded stay.

Type D: Short-term research scholarships for master students and senior experts

At the time of application, no more than 6 years should have passed since the graduation with a bachelor degree (not applicable for senior experts).

As a rule, applicants must be registered at a university of one of the programme related countries at the time of application as well as during the funded stay (not applicable for senior experts).

Senior experts must be employed at a university or research institute.

Type E: Short-term research scholarships for PhD students (not applicable for senior experts)

At the time of application, no more than 6 years should have passed since the graduation with a master degree. Doctoral candidates should not have started their doctoral degree any longer than three years previously (not applicable for senior experts).

Senior experts must be employed at a university or research institute

All types: Proposals must be relevant to the research areas of the prospective SPACES II cooperation project] in Germany. Please be sure to submit an invitation by a scientist working in the prospective [SPACES II project](https://www2.daad.de/medien/ausland/ausschreibungen/projektuebersicht_spaces_cabude.pdf) [\[https://www2.daad.de/medien/ausland/ausschreibungen/projektuebersicht_spaces_cabude.pdf\]](https://www2.daad.de/medien/ausland/ausschreibungen/projektuebersicht_spaces_cabude.pdf) in Germany.

Language skills

Very good English language skills are essential. However, we do not require an official English test. The author of the invitation letter must confirm that the English language skills are sufficient to pursue the research project in Germany.

Application Procedure

Application deadline

Applications can be submitted at any time. The online application must have been received by the DAAD online portal 2.5 months before the desired starting date.

Application documents

Certificates, proof of credits, certifications and translations may be scanned in noncertified form and uploaded to the DAAD portal. The DAAD reserves the right to request certified copies of the documents.
