Joint degree / double degree programme	No

Description/content	<p>The BSc in Integrated Social and Cognitive Psychology is built on a multilevel approach to human behaviour, reflecting the insight that behaviour is constrained and shaped by factors that range from biological and psychological variables to socio-cultural contexts. These factors interact in an intricate fashion in their effects on behaviour. Our programme focuses on equipping you with the skills to analyse, model, and eventually influence those multilevel interactions. For instance, you will explore in depth how relationships between individual people, between social groups, and even between cultures may develop as a function of influences from those different levels.</p> <p>The BSc programme in Integrated Social and Cognitive Psychology lays a solid foundation for careers in a range of directions: advertising, counselling, diversity management health promotion, human resource management, intercultural relations, management consulting, market research, media, psychotherapy, and sales as well as applied research in companies, public institutions, and non-governmental organisations.</p> <p>In particular, ISCP prepares students for roles in which they will contribute to strategies for facing the challenges of diversifying societies.</p> <p>https://constructor.university/programs/undergraduate-education/integrated-social-cognitive-psychology</p>

Course Details

Course organisation	All programmes are individually structured. Every student is assigned to an academic adviser. The goal of academic advising is to provide detailed information to students concerning the programme of study and to help students manage their time at university to their best advantage.
International elements	<ul style="list-style-type: none"> • International guest lecturers • Training in intercultural skills • International comparisons and thematic reference to the international context • Language training provided • Integrated study abroad unit(s)
Integrated study abroad unit(s)	The fifth semester includes a mobility window for study abroad options.
Integrated internships	<p>The internship programme is a core element of Constructor University's employability approach. It includes a mandatory internship (minimum eight weeks full-time), which provides insight into the labour market as well as practical work experience related to the respective area of study. Successful internships may initiate career opportunities for students. For more information, please contact the Career Services Center.</p> <p>https://constructor.university/student-life/career-services</p>
Course-specific, integrated German language courses	No
Course-specific, integrated English language courses	No

Anna K.
**BSc Integrated Social and
Cognitive Psychology | 2016**

I would say that from the first day I stepped foot on campus, everything I experienced was beyond what I was expecting. The ISCP programme itself helped me develop skills in statistics and research analysis as well as the ability to quickly develop knowledge of new concepts and learn efficiently, which are both essential skills for consulting.

Career Perspectives

A BSc degree from Constructor University prepares you for many career opportunities in a wide range of directions: psychotherapy and health promotion, applied research in companies, public institutions, and non-governmental organisations, in human resource management, diversity management, or intercultural relations as well as in business consulting, market research, media, and sales.

Constructor University is an international, research-oriented, state-recognised university in Bremen, Germany. Located in the heart of Europe, our campus is the home of a truly international community, and all our study programmes are taught in English. Over 1,600 students from more than 110 countries live and study at Constructor University. Our broad portfolio of study programmes from the natural and social sciences, engineering, and economics attracts students with diverse interests who come together to share points of view, learn from a multiplicity of perspectives, and grow. Students are actively involved in research from their first year of study, receiving support from professors who are themselves researchers and leading figures in their chosen fields.

Full of extracurricular activities and events, Constructor University is truly a vibrant campus and a "home away from home" for our students. Constructor University sets the standard in higher education with top-ranked academics and excellence in research in international rankings (e.g. U-Multirank & CHE). The renowned Times Higher Education magazine has listed Constructor University among the top 25% of all universities and one of the top 35 young universities worldwide.

Join our vibrant international community at Constructor University! Meet students from more than 110 countries!

University location

Constructor University is located in the northern district of the city of Bremen, close to the North Sea. Bremen, a Hanseatic city, is renowned for its shipping industry, along with the port of Bremerhaven, which is located 70 km away. Over 35,000 students study in the region, a fact which is reflected in the lively off-campus life in the city. There are many restaurants, pubs, clubs, museums, theatres, and other venues for students to explore. Come and join our vibrant student community!
