Ova Candra Devi
Ismoyo
UM graduate

The two years I spent in Berlin, when I studied Urban Management in Developing Countries, were one of the best milestones in my life. This was the time when I found my passion to improve the waste management system in my home country, Indonesia. The course also gave me the chance to experience living independently and having wonderful friends from diverse backgrounds from all over the world. Working in this atmosphere was a great opportunity for me.

Technische Universität Berlin

Urban Management at TU Berlin: Management of Mobility

© Urban Management

With more than 35,000 students, around 100 course offerings and 40 institutes, the Technische Universität Berlin is one of Germany's largest and most internationally renowned technical universities. The range of services offered by seven faculties serve to forge a close link between the natural and technical sciences on the one hand, and the planning, economics and social sciences and humanities on the other.
