University Location

Wildau

TH Wildau is a campus university. The teaching and administration buildings, dining room, and library are all located on an interconnected site by the Wildau S-Bahn train station, with direct access to Berlin. Therefore, studying in Wildau is exceptionally convenient because you don't have any long journeys between classes.

The campus is located on a historic industrial and manufacturing site. Where once locomotives were built in vast production halls, today people study, teach, and research. Some of the teaching and laboratory facilities of the TH Wildau are housed within these historic walls, while others are housed in new buildings. This extraordinary mix of old and new continues to attract students and visitors with a passion for architecture.

Berlin

As the multicultural capital city with 3.5 million inhabitants, Berlin stands out not only as the centre of German politics but also as a world-renowned hub of culture, complex historic events, fashion, clubbing, and creativity. Berlin is home to numerous secondary schools and educational institutions, making it the perfect city in which to live and study.

German courses take place in Berlin Mitte, the central district of the city. Our institute is located in the former factory complex that used to house Osram, a German company famous for all kinds of light bulbs. Around the historic building, you will find a vibrant neighbourhood with numerous cafés and restaurants where you can eat good and cheap meals.
