Target group	<p>The teaching and learning contents and objectives as well as the structure of the module are geared mainly towards undergraduate and graduate students of supply chain management, logistics or economics and business administration with specialisation in supply chain management.</p> <p>Students with a different academic background should get in touch with the programme coordinator to check if participation is possible.</p>
Description/content	<p><b>Sustainable Supply Chains Programme Description:</b></p> <p>The excessive exploitation of natural resources required to achieve economic growth and development has had a negative impact on the environment while also causing these resources to become scarcer and costlier. It is therefore easy to see why the idea of a circular design of products and systems that offers new ways to create more sustainable supply chain models is taking hold</p>

across the globe. This module is designed to help you understand the growing business case for sustainable supply chain solutions covering topics from environmental social governance in supply chain and supplier management, carbon accounting, green and sustainable distribution and innovative technology solutions. Participants will learn how to design, manage and lead a sustainable supply chain by incorporating circular material as well as product and system design into strategies to support sustainable growth. Different requirements of supply chain tiers and various industries such as automotive, retail, pharmaceutical and chemical supply chain are considered in this module.

A four-day **academic excursion to Berlin** and **regional company visits** are part of the programme.

#### German language courses:

In addition to the academic seminars, all students attend intensive German language courses. These courses are offered at three different levels (ranging from beginner to intermediate).

Darmstadt University of Applied Sciences:

- One of the largest universities of applied sciences in Germany
- Member of the European University of Technology EUT+
- 16,000 students, 340 professors
- 12 departments with Bachelor's and Master's degrees in engineering, natural sciences, mathematics, computer sciences, business, social sciences, architecture, media, and design
- Practice-oriented education
- Worldwide network: over 140 partner universities
- International students represent approx. 20% of the student body

## University location

Darmstadt, also known as the "City of Science", is home to several scientific institutions, universities, and high-tech companies. The city is rich in old art nouveau establishments, such as Mathildenhöhe. Darmstadt is located in the vibrant metropolitan Rhine-Main area, right next to Europe's financial centre Frankfurt/Main and within easy reach of many major European cities.
