

Franco-German Fellowship Programme on Climate, Energy and Earth System Research

Funding of research groups in the framework of the implementation of the Paris Climate Agreement.

Dear applicant,

Thank you for your interest in the "Franco-German Fellowship Programme on Climate, Energy and Earth System Research".

You are already a successful top-level junior or senior scientist in the field of climate, energy or Earth system research and are interested to take the next step forward in your professional career in Germany.

This program is offering you the opportunity to set up your own research group at a university or research institution in Germany over the next four years and to realize a cutting edge research project fitting into the priority research areas covered by the present call.

The present online application form (Lime Survey) is the first part of a two-step-application procedure. You can submit a Statement of Interest and become a candidate for this program.

Before you start to fill-in this Lime Survey, please carefully read the Call for Application

<https://www.daad.de/hochschulen/ausschreibungen/projekte/de/11342-foerderprogramme-finden/?s=1&projektid=57401203>.

For your convenience you can download a PDF dummy of the form giving you an overview of the questions asked.

Please note that:

- 1) Your application will only be considered if the online form is completed before October 13th, 2017 at 12.00 noon (CET).
- 2) That all questions highlighted by a star (*) are mandatory.

If you have questions or need further information, please refer to the Q and A section on the programme's homepage <https://www.fona.de/en/index.php> or write an email to MOPGA-GRI@daad.de.

Personal data relating to applicants will be stored by the DAAD in accordance with the German Federal Data Protection Act (Bundesdatenschutzgesetz) insofar as this data is needed to process the application.

Your application documents will be sent to all bodies and organizations - such as funding bodies of the DAAD - involved in the preselection process. Successful candidates will be asked by the DAAD to submit a full application for the programme. The application documents of unsuccessful applicants will be deleted after rejection.

Your application documents remain with the DAAD. In addition, the DAAD will not disclose your data to any third party unless it is required to do so by law or regulation or by a binding government order, or the disclosure is required to grant your sponsorship.

There are 54 questions in this survey

Personal Data

Keys Words

[] Targeted research field *

Please choose **only one** of the following:

- Climate Change
- Earth Systems Science
- Energy Transition

[]

Climate research contributes significantly to the shaping of social and political awareness of the challenges of climate change. Climate data and models can provide information of the extent to which the earth's ecosystem is changing and provide the knowledge basis for decisions. The research field of climate change includes activities in the area of monitoring, modelling and mitigation.

Choose one topic area in the research field "Climate Change". *

Only answer this question if the following conditions are met:

Answer was 'Climate Change' at question '37 [Q3000]' (Targeted research field)

Please choose **only one** of the following:

- Enhanced observation of the Earth system and attribution of environmental and climate changes
- Further understanding of processes, interaction scales, risks and thresholds
- Improved modelling of complex earth systems, data assimilation and predictability
- Improved understanding and estimation of the extent of future extreme events
- Mitigation and social consequences
- Other

Please note: Priority will be given to applications from the above mentioned research areas.

[]

The key question in the field of earth system research is the analysis of the functioning and interaction of the systems and processes that determine life on Earth. The activities are therefore primarily related to basic research for an improved understanding of the Earth system (in particular marine, coastal and polar research as well as geosciences).

Choose one topic area in the research field "Earth Systems Science". *

Only answer this question if the following conditions are met:

Answer was 'Earth Systems Science' at question '37 [Q3000]' (Targeted research field)

Please choose **only one** of the following:

- Development of interdisciplinary standars for long-term data and assessment systems (especially in geo-modelling),
- Improved understanding of climate-related changes in mass and energy flows in the Earth system
- Monitoring and early warning system for the identification of natural and anthropogenically induced natural risks
- Assessment of human use claims in coastal areas with the objectiv of designing sustainable development concepts for the effective management of natural resources
- Development of innovative measurement methods and techniques for automatic and autonomous monitoring within the framework of maritime observation systems
- Other

Please note: Priority will be given to applications from the above mentioned research areas.

[]

The research field "Energy Transition" focuses on solutions for a sustainable, ceure and affordable energy supply based on renewable sources. The field includes basic research for the development of renewable generation, storage and distribution technologies as well as systems research and socio-economic aspects.

Choose one topic area in the research field "Energy Transition". *

Only answer this question if the following conditions are met:

Answer was 'Energy Transition' at question '37 [Q3000]' (Targeted research field)

Please choose **only one** of the following:

- New materials for the efficient generation, storage and use of renewable energy. Focus areas are solid state batteries, hydrogen carriers, gas separation membranes, compound semi-conductors, high-temperature superconductors
- Highly innovative concepts and technical solutions for a sustainable large-scale supply with renewable energy integrating different sectors and industries (mobility, industry, households, electricity). Focus areas are energy storage and distribution (e.g. Power-to-X, high voltage direct current technologies)
- Systemic analysis and scenarios for the energy transition including economic, ecological and social challenges both on a global scale and in different parts of the world
- Digital solutions for the smart sustainable energy system of the future; soft- and hardware for the digital transformation of energy services und markets
- Other

Please note: Priority will be given to applications from the above mentioned research areas.

[]Disciplinary fields (non-exhaustive) *

Please choose **all** that apply:

- Agronomy
- Anthropology
- Archeology
- Biogeochemistry
- Biology
- Chemical
- Chemistry
- Climatology
- Computer science
- Demography
- Ecology
- Economics
- Education
- Electro chemistry
- Engineering
- Epidemiology
- Food science
- Geochemistry
- Geography
- Geology
- Geophysics
- Glaciology
- Health sciences
- History
- Hydrology
- Information systems
- Instrumentation
- Law
- Material science
- Mathematics

- Medicine
- Oceanography
- Paleontology
- Phenology
- Philosophy
- Physical chemistry
- Physics
- Political science
- Sociology
- Solid state
- Statistics
- System science
- Other:

[]Objects (non-exhaustive)

Please choose **all** that apply:

- Atmosphere
- Biodiversity
- Biogeochemical cycles
- Climate
- Continent
- Continental water
- Critical zone
- Cryosphere
- Desert

- Ecosystem
- Electromobility
- Environment
- Forest
- Geological resources
- Land
- Landscape
- Littoral
- Municipal buildings

- Ocean
- Permafrost
- Polar regions
- Rural/isolated area
- Soil
- Space
- Urban area
- Underground
- Other:

[]Specific keys words related to your scientific expertise.

key word (1)

key word (2)

key word (3)

key word (4)

key word (5)

[] Further Comments

Please write your answer here:

Host Institution in Germany

[]Have you identified a German institution to conduct your research? *

Please choose **only one** of the following:

- Yes
 No

Identification of a host institution is not mandatory at the present stage of the application. In this case select "no".

[]

Please check the central portal www.research-in-germany.org for an overview of the German research landscape and practical information for foreign scientists and researchers to collaborate with German research organisations.

For a list of useful links about climate research, energy research and earth system research, respectively, please refer to the call for applications.

Only answer this question if the following conditions are met:

Answer was 'No' at question '45 [Q4000]' (Have you identified a German institution to conduct your research?)

[]Please indicate the name of your intended host institution in Germany.

Only answer this question if the following conditions are met:

Answer was 'Yes' at question '45 [Q4000]' (Have you identified a German institution to conduct your research?)

	Institution Name	City Name	Contact Person
1	<input type="text"/>	<input type="text"/>	<input type="text"/>
2	<input type="text"/>	<input type="text"/>	<input type="text"/>

Motivation and Personal Comments

[]Motivation (max 1,000 characters spaces included)

Please explain your motivation for applying to the call and for moving to Germany. *

Please write your answer here:

[]Comments (max 1,000 characters spaces included)

Please use this box to further provide any personal or professional information the jury needs to consider during evaluation.

Please write your answer here:

Survey Verification

[] Did you also apply to the French international research call "Make our Planet Great Again"? *

Please choose **only one** of the following:

- Yes
 No

[] Have you answered all the questions of the survey? *

Please choose **only one** of the following:

- Yes
 No

[] You cannot download your publication list and submit your survey. Please use the scrolling down menu "Question index" to answer the remaining questions.

Only answer this question if the following conditions are met:

Answer was 'No' at question '51 [Q6001]' (Have you answered all the questions of the survey?)

Full Publication List

[]To complete your application, you must upload your full publication list.

Only answer this question if the following conditions are met:

Answer was 'Yes' at question '51 [Q6001]' (Have you answered all the questions of the survey?)

Kindly attach the aforementioned documents along with the survey

Final Submission Step

[]

Is your application form ready to be sent ?

By selecting 'yes', you confirm that the survey is completed and that your publication list is uploaded. Once submitted the survey won't be accessible any more. *

Please choose **only one** of the following:

yes

10/13/2017 – 12:00

Submit your survey.

Thank you for completing this survey.
