

U5 Strategic Partnerships

Serving the community – educating the global world

Objectives:

- Advancement of bilateral cooperation models into strategic partner network
- Establishment of multilateral research platforms (e.g. Joint Virtual Research Institute)
- Strengthening ties between young researchers (3+2 Program, PhD Workshop)

Measures:

- Diverse communication formats for researchers and university administrators
- Workshops and Summer Schools
- Study and research visits
- Joint academic publications and research proposals
- Teaching stays

Strategy: the U5 network aims to strengthen the existing cooperation between the strategic partners by creating an innovative collaborative structure, promoting excellent research cooperation projects and junior scientists, in order to facilitate knowledge transfer and to contribute to the network's effective profiling in the global world.

Cooperation Fields:

- Mathematical Models and their Applications
- Diseases of Civilization
- Bio and Nano Interfaces
- Energy Materials
- Human-Computer - Interaction

Project Team:

- Project Leader: Daniela Englisch
- Project Coordinator: Elena von Klitzing
