# Application Survey Postdoctoral Researchers' Networking Tour 2018

Dear applicant,

Thank you very much for your interest in this year's Postdoctoral Researchers' Networking Tour!
In the following, we ask you to provide some information on your scientific profile. We focus on aspects relevant for our selection criteria, e.g.

- Scientific excellence (productivity, quality, creativity)
- Substantial interest in following a career in Germany
- Drive and courage, initiative and a marked willingness to play a role in shaping the future.

There is no preference for a specific specialization in the field of Artificial Intelligence or the orientation towards a specific career path. However, we will ensure that a spectrum of research orientations and career plans is represented in the group, in correspondence to the institutions we will visit. This will help to ensure a dynamic and stimulating exchange of experiences, perspectives and information within the group of participants.

The following application process will require your brief cv, contact information of one professional reference person, your H-index (based on Google Scholar) and the bibliometric data of three of your most important publications.

You can check a pdf-version of the application survey on the tour website before you start the application process.

There are 25 questions in this survey
